

Approximately 150 people attended the ICREW NJ signature fundraising Golf Event held May 6, 2010 at the Forsgate Country Club, Monroe Township. The Premier Sponsor was McCann Systems. Loran Associates sponsored the Beverage Cart to keep the golfers in good spirits! Photos of each of the foursomes were sponsored by Unity Construction Services, Inc.

The day began with a scramble format for golfers to try their luck on the links. Also offered were opportunities for golfers to play 9 holes and for beginners to attend a clinic with lessons provided by a Pro. Golf bags and wine baskets were given for various hole accomplishments.

Grand Prize Raffle Tickets were sold for the benefit of NJ Sharing Network (see info below) including a \$2,500 Liberty Travel travel voucher donated by Chicago Title Insurance Co., Denholtz Associates, and Farer Fersko, P.A.

Gary Michaels Fine Jewelers donated a pair of diamond earring studs, a TV was donated by DesignEXT, and a Blue Ray player was donated by New Millennium Bank and Carousel Industries. The sale of chances to win a trip to the Cayman Islands also created excitement throughout the day. Valuable donated items were offered at the Silent Auction, and many tables of donated prizes were displayed for a draw raffle.

After golf, the players enjoyed an evening cocktail hour to relax and unwind with a networking dinner following to foster connections made on the course.

One of the principal focuses of ICREW NJ is philanthropy. ICREW NJ's commitment was to contribute 100% of all funds raised at the 2010 Golf Classic to the Sharing Network Foundation, Inc. The Sharing Network Foundation supports the mission and work of New Jersey Organ and Tissue Sharing Network (NJ Sharing Network) by raising funds to promote public education about the importance and benefits of organ and tissue donation.

NJ Sharing Network is the non-profit, federally-designated organ procurement organization in New Jersey responsible for the recovery of organs and tissue for the 4,500 residents currently awaiting transplantation and the thousands of others who need a life enhancing tissue transplant. NJ Sharing Network is part of the national recovery system which is in place for the over 105,000 people waiting for a life saving organ. NJ Sharing Network reaches the community through the High School Heroes program, the professional education of nurses and physicians, and the media to inform the public of the opportunity to register to donate and of the benefits of transplantation. Through organ and tissue donation and transplantation, NJ Sharing Network saves lives, gives hope, and restores physical function. To make a difference today, register to become an organ and tissue donor by visiting www.donatelifenj.org.
