

New Jersey Organ and Tissue Sharing Network (NJ Sharing Network) is the non-profit, federally-designated organ procurement organization in New Jersey responsible for the recovery of organs and tissue for the 4,500 residents currently awaiting transplantation and the thousands of others who need a life enhancing tissue transplant. NJ Sharing Network is part of the national recovery system which is in place for the over 105,000 people waiting for a life saving organ. NJ Sharing Network reaches the community through the High School Heroes program, the professional education of nurses and physicians, and the media to inform the public of the opportunity to register to donate and of the benefits of transplantation.

Our commitment is to contribute 100% of all funds raised at the 2010 ICREW NJ Golf Classic to our partner, the Sharing Network Foundation, Inc. The Sharing Network Foundation supports the mission and work of NJ Sharing Network by raising funds to promote public education about the importance and benefits of organ and tissue donation.

Through organ and tissue donation and transplantation, NJ Sharing Network saves lives, gives hope, and restores physical function.

To make a difference today, register to become an organ and tissue donor by visiting us at: www.donatelifenj.org
